

Satwik Mukherjee

Experience

Software Development Engineer | Generali Central Insurance, Navi Mumbai, Maharashtra

Jul 2024 – Present

- Spearheaded the development of key full-stack applications with React, C#, and .NET Core, optimizing internal insurance operations workflows and improving user efficiency.
- Own a GitHub Actions CI/CD pipeline that automates builds and UAT deployments via PR/merge workflows — eliminating manual deployment steps and reducing release friction.
- Cut SQL Server query latency by 15% through systematic query analysis, index optimisation, and stored procedure refactoring across high-traffic data paths.
- Integrated and verified 30+ REST and SOAP API endpoints using Postman; worked with Microservices and API Gateway integration patterns while maintaining 100% pass rate across pre-release validation cycles.
- Triageed and resolved 50+ production incidents with an emphasis on root cause elimination — reducing repeat failures and improving system reliability.
- Currently associated with Salesforce vendor onboarding across 3 major vendors: Tech aim · CRM case creation; Apmosys · OCR/ICR email inward/outward into Salesforce; Text wave · WhatsApp chatbot for policy status, claims and documents.
- Applied generative AI tooling to streamline QA workflows, reducing manual testing overhead by 20% per sprint.
- Shipped features and fixes across 5+ projects simultaneously in Agile and Waterfall delivery tracks, coordinating with BAs, QA engineers, and product owners.

Projects

GC-Connect – Portal Rebuild | .NET Core · React · SQL Server · GitHub CI/CD · IIS

2025 – Present

- Tech led on the rewrite of Generali's internal enterprise portal from a legacy stack to .NET Core — the company's top digital modernisation priority.
- Shipped 2 modules and 12 pages to UAT, obtained QA sign-off, and worked on the CI/CD pipeline that deploys them automatically on merge. Supported VAPT remediation and fix validation before release.

NTU Claims System – Support & Optimisation | .NET · SQL Server · SOAP/REST · IIS · TFS

2024 – 2025

- Primary support engineer for a live insurance claims platform — resolving 15+ critical issues per week via API debugging, SQL tuning, and IIS deployment management.
- Built daily MIS reports that gave leadership real-time visibility into claims pipeline volume and error rates.

Workshop Partner Portal | Angular · .NET Core · SQL Server · MFA

2024

- Engineered a partner onboarding portal with MFA authentication, IMD code validation, and a Change Request workflow — reducing manual onboarding effort for business ops teams.

E-Commerce Platform | React · REST API · JavaScript · NodeJS · MongoDB Atlas

2023

- Created an end-to-end e-commerce solution integrating user authentication, product catalogue management, cart functionality, and checkout processes.
- Reduced front-end build time by 25% through a reusable React component library with hooks-based state management.

Salesforce CRM Vendor Onboarding | Salesforce · REST APIs · WhatsApp Voice bot · OCR

2026 – Present

- Onboarded 3 vendors — Text wave, Tech aim, and Apmosys — handling MSA, POC, API specifications and requirement gathering.
- Integrated WhatsApp voice bot with Salesforce for live-agent handoff; piloting OCR integration.

Education

Vellore Institute of Technology

B. Tech in Computer Science and Engineering · CGPA: 7.83

Bhopal, India

Aug. 2020 – May 2024

Technical Skills

Languages: C#, JavaScript (ES6+), C++, HTML5, CSS3, SQL

Frontend: React, Angular

Backend: .NET Core, ASP.NET, Node.js, Microservices, SAP BTP Integration Suite

Databases: SQL Server, MySQL, MongoDB, Stored Procedures, Query Optimisation

APIs & DevOps: REST, SOAP, API Gateway, Postman, GitHub Actions CI/CD, IIS, UAT Deployments, TFS

Testing: Unit Testing, Integration Testing, API Testing, Test Automation, RCA

Tools & Methods: Git, Salesforce, JIRA, VS Code, Agile/Scrum, Waterfall, SDLC

Certifications

- Full Stack Web Development — Johns Hopkins University, Coursera
- Bits and Bytes of Computer Networking — Google
- Microsoft Identity Fundamentals SC-900 — Microsoft
